## PROGRAM OBJECTIVES

M. A. Public Administration objectives of the program are-

1. To fulfill contemporary societal needs of public governance and equip the learner / students with necessary knowledge, wisdom and skills relevant for local, national and international governance.
2. To develop specialized knowledge and skills among its students to engage themselves in Public governance and its related activities. There is need for well informed and proficient manpower for discharging regulatory responsibilities and delivering a set of quality services to the satisfaction of the citizens.
3. To prepare and competent the youth for civil services need and their academic development by equipping them with recent developments at national scenario, as the concerns for good Governance and citizen centric governance have become important objectives in addition to the Traditional narratives of efficiency, economy and effectiveness.
4. To develop students as a responsible part of civil society. In recent years, mega developments like information and communication technology, liberalization, privatization, globalization, decentralization and growing role of the civil society have impacted the role of the state and its agencies. It has changed the citizens' interface with the governance and market forces. Innovative citizen-centric practices in governance have been adopted across the world.

After successful completion of the course the learner will be competent and confident to capture and join various government opportunities such as civil service, police service and others. Besides planning career in activity area of public administration, the learners can also prepare themselves in research and teaching.

## PROGRAM OUTCOMES (PO)

Learners with strong knowledge in public administration can deal with the critical issues of public and individual life including political, social, and economic aspects. The framework of the course and papers are designed in a way to develop understanding of the principles, institutions and their ecological concerns, processes and issues of local, regional, national and international levels of public governance and academics of public administration. After successful completion of Program the Learning Outcomes will be reflect:

1. Fair understanding of theories, principles, models and ideas of discipline of public Administration and its academic significance.
2. Competency to respond on contemporary societal needs of public governance and equip them with necessary knowledge, wisdom and skills relevant for local, national and International governance.
3. Knowledge about the inter-disciplinary nature and ecology of public administration in both theory and practice (activities).
4. Knowledge about public welfare administration, development administration and various schemes, programs, measures and techniques to achieve them.
5. Knowledge about the economic and finance part of the government and administration, and roleresponsibilities of the citizen in their social and economic activities. 6. Knowledge about real working of administration and its personnel, and issues affecting their performance, efficiency and effectiveness.
6. Competency in communicational skill, group discussion, public speaking, academic writing and personality development through ability enhancement and skill development papers and CCE activities.
7. Familiarity with the issues of good governance, responsive governance, transparency and accountability, and the use of Information and communication technology in the field of public administration.

## PROGRAMME SPECIFIC OUTCOMES (PSO)

The program specific outcomes of the M.A Public Administration program are as under-

1. Students would be able to live, perform and participate as a responsible citizen.
2. Students would be able to know about the research and development opportunities in the field of administration/policy/ governance studies.
3. Students would be able to analyze the effectiveness of governmental policies and program.
4. Students would gain confidence while dealing with administrative officials and political leaders.
5. Students would be able to develop their research aptitude and orientation.
