Dr. Aashish Rastogi, Department of IT, University of Technology and Applied Sciences  
Muscat, Oman.

**Introduction:** The Department of Computer Science and Application organized the fifth edition of the Artificial Intelligence for Society (AI4S) program on 15th July 2023. The event focused on exploring opportunities in the IT sector from a global perspective. Dr. Aashish Rastogi, an esteemed speaker and faculty member from the University of technology and applied sciences, Muscat, Oman, delivered the keynote address. The program saw the active participation of professors of computer science, postgraduate students, and other faculty members.

*AI4s Academic and Industrial popular  
Lecture Series Talk-5 on Emerging IT Trends*

*Welcome Address by Head of The  
Department Dr. H.S. Hota*

**Program Highlights:** The program began with a warm welcome by Dr. H.S. Hota, the Head of the Department, who expressed his gratitude to all the guests for attending. He emphasized the department's commitment to organizing such programs regularly, aimed at benefiting the students. Dr. Hota also informed about developing a state-of-the-art laboratory facility for the department, which has proven to be instrumental in fostering

Dr. Manish Shrivastava, an Associate Professor from Guru Ghasidas university, Bilaspur, addressed the gathering and acknowledged the department's consistent efforts in organizing such impactful events. He appreciated the dedication of Dr. Hota in establishing an excellent centre of excellence and commended the department's commitment to providing holistic education to its students. He commended the department for its continuous efforts in organizing such events and emphasized the importance of sharing knowledge and experiences among academic institutions. Dr. Shrivastava stressed the significance of adopting effective teaching methodologies from foreign countries and emphasized the need for accountability in the teaching-learning process.

*Dr. Khaskhalam Emphasizes the Importance of Learning Teaching Methodologies from Foreign Countries*

Dr. Khaskhalam, another distinguished guest, stressed the importance of learning teaching methodologies from foreign countries. He highlighted the need for teachers to take accountability for the teaching-learning process, emphasizing that continuous improvement is crucial in delivering effective education.

The main speaker, Dr. Aashish Rastogi, delivered a comprehensive presentation on the teaching methodology in Oman and shared insights into the global perspective of the IT sector. He discussed the latest trends, advancements, and opportunities available in the IT industry worldwide. Dr. Rastogi expressed his willingness to collaborate with the Department of Computer Science and Application for future research endeavours, showcasing the potential for joint projects. Following Dr. Rastogi's address, many teachers engaged in discussions with him regarding teaching methodologies and various aspects of the IT sector. These interactions facilitated knowledge-sharing and sparked innovative ideas among the attendees.

*Vote of Thanks Extended by Mr. Dr. Rashmi Gupta To All the Participants and Guests.*

Dr. Rashmi proposed the vote of thanks, expressing gratitude to all the participants, speakers, and guests for their invaluable contributions to the program. She acknowledged the efforts of the organizing committee and expressed optimism for future collaborations and research initiatives.

*At The End of The Program Dr. Rashtogi Appraises the Effort of Computer Science And Application Department for Meaningful discussions on Teaching Practices and IT Perspectives.*

*At The End of The Program Dr. H.S. Hota Head of The Department Honored Dr. Aashish Rastogi For Their Valuable Lectures and Meaningful Discussion.*

**Conclusion:** The AI4S program on the opportunity in the IT sector: A Global Perspective, organized by the Department of Computer Science and Application, was a highly successful event. Dr. Aashish Rastogi's insightful address shed light on teaching methodologies in Oman and provided attendees with a broader understanding of the global IT industry. The engagement between the faculty members and Dr. Rastogi fostered meaningful discussions on teaching practices and IT perspectives, paving the way for future collaborations.

The event provided a platform for academia and industry experts to share insights and knowledge, fostering the growth and development of the IT sector. The discussions on teaching methodologies and the global perspective of the IT industry encouraged participants to explore new avenues and adopt innovative approaches. The department's commitment to organizing such programs reflects its dedication to the holistic development of its students and faculty members. The event served as a platform for academia-industry interaction, contributing to the exchange of knowledge and the advancement of the field. The AI4S series has proven to be an effective means of bringing together experts from industry and academia to share insights on the latest technologies.
